PhD & Engineer in industrial engineering, INPG-ENSGI

Traceability expert

Expert to the Court of Appeal of Montpellier

As a traceability expert I am able to train you in traceability, to do diagnoses of your needs and to assist you in critical periods of crisis or litigation, thus optimizing your traceability system.

I intervene within all sectors and in the organization of these sectors, especially in the food sectors but also in the software sector as well as the financial, car industry, health and insurance sectors. **My interventions within private structures are confidential.**

I am a totally freelance expert, able to give you an unbiased opinion as far as your position, needs, or **your strategy in traceability** are concerned.
